

# Assessing Watershed Phosphorus Sources

## Agenda

1:00 to 4:00

|       |                                                                           |                 |
|-------|---------------------------------------------------------------------------|-----------------|
| 12:30 | Registration                                                              |                 |
| 1:00  | Welcome                                                                   |                 |
| 1:10  | Basics of phosphorus in the soil/water system                             | John Moncrief   |
| 1:40  | Risk factors for phosphorus loss                                          | John Moncrief   |
| 2:00  | Models for assessing phosphorus loss risk                                 | Ann Lewandowski |
| 2:15  | Break                                                                     |                 |
| 2:30  | Demonstration and explanation of the<br>Phosphorus Source Assessment Tool | Ann Lewandowski |
| 3:10  | Hands on practice                                                         |                 |
| 3:40  | Discussion of interpretations and applications                            | Ann Lewandowski |
| 4:00  | Adjourn                                                                   |                 |
