### WHY DO I NEED TO JUSTIFY WHY I MADE A PURCHASE?

All financial and accounting transactions require justification. It ensures compliance. Justifications should be written for internal and external audiences. Can an external audience who knows nothing about you, your department, or the trip understand why it was warranted? Does the justification explain how the trip furthered the mission of the University? Units must ensure transaction justification and supporting documentation includes complete and transparent information. For detailed information on the University policy surrounding justification, see [policy.umn.edu](http://policy.umn.edu) (University Policy Library) and "[Documenting Financial/Accounting Transactions](#)".
